Subject: Request for Information about Rocks, Minerals, Mining, and Geology of Utah

Dear Mr. Alberg:

Thank you for your inquiry about mining, minerals, and the geology of Utah. The best source for this information is the Utah Geological Survey's web site at <http://geology.utah.gov/>. On the right side of the web page is a link to popular geology from which you can find mining statistics and information about several aspects of geology, rocks, and minerals.

I hope this provides the information you need, but let me know if you have additional questions. I can be reached at the address shown below, by telephone at 801-538-5261, or by electronic mail at paulbaker@utah.gov.

Sincerely,

Paul B. Baker
Minerals Program Manager
